SUMMARY

Aspiring Computer Science graduate with strong fundamentals in software development and backend systems. Passionate about building scalable web applications, RESTful APIs, and distributed systems using modern technologies. Seeking an entry-level software engineering role to contribute technical skills and grow within a fast-paced engineering environment.

TECHNICAL SKILLS

Languages	: Java (DSA), HTML, CSS, JavaScript, OOPs
Frameworks	: React.js, Express.js, Node.js
Databases	: MongoDB, SQL
Dev Tools	: VS Code, Git, GitHub, Postman
Soft Skills	: Communication, Teamwork, Problem Solving, Leadership

EDUCATION

Techno International New Town <i>B.Tech. in Computer Science Engineering (CSE), CGPA: 7.21/10</i>	Kolkata, West Bengal Sep. 2022 – May 2026
S B College, Ara <i>Class XII – 80.80%</i>	Bihar Apr. 2019 – Mar. 2021
S G Vidyalaya, Sonbarsa <i>Class X – 82.40%</i>	Bihar Apr. 2018 – Apr. 2019

PROJECTS

AcadBuddy – AI-Powered Full-Stack Academic Workspace - Built an AI-driven academic platform enabling subject-based learning, automated notes generation, exam preparation, and community content sharing. - Developed scalable REST APIs with JWT authentication and implemented AI pipelines for file-based context processing and automation.	Source code
SparkIT – E-Commerce & E-Waste Management Platform - Built a full-stack platform with JWT authentication, role-based access control (RBAC), and RESTful APIs. - Developed a dynamic React UI using React Query and Zustand for efficient state and server-side data management. - Optimized database schemas, ORM integration, and indexing using PostgreSQL and Drizzle ORM. - Integrated REST APIs and Socket.io WebSockets to enable real-time data synchronization.	Source Code
AI Email Generator – Full-Stack SaaS Platform - Built a full-stack SaaS platform for AI-powered personalized email replies with tone customization and rich text editing. - Designed scalable RESTful APIs with OpenAI API integration for intelligent and personalized email generation. - Implemented secure JWT authentication, password recovery, and email workflows using Nodemailer. - Tech: React.js, Node.js, Express.js, MongoDB, JWT, OpenAI API, Nodemailer.	Source Code

EXTRACURRICULAR / ACHIEVEMENTS

- Solved more than **130 problems on LeetCode** and **50 problems on GeeksforGeeks (GFG).**
- Participated in **AINCAT 2025.**
- Participated in the **Business Plan Event at IIT Kharagpur.**
- Participated in **Smart India Hackathon (SIH) 2025.**
- Finalist of **It's A HACK 2.0 Hackathon.**
